

MILITARY BULLET-PROOF VESTS

BULLET-PROOF VEST. Ref. FE-GEO

- Ballistic protection on chest, back, sides, shoulders, neck and pelvis.
- Special design that avoids projectile penetration zones in the union of the neck with pectoral and dorsal panels.
- Possibility of fitting additional ballistic plates on chest and back, for higher levels of threat.

MILITARY BULLET-PROOF / SHRAPNEL-PROOF VEST. Ref. FE-EA1

- Designed for military use in all types of operations.
- Maximum comfort thanks to the special "Superflex" system that makes the use of long weapons and vehicle driving easier.
- Ballistic protection on chest, back, sides, shoulders, neck and pelvis.
- Pockets for high level ballistic plates on chest and back.
- EQUIPMENT CARRYING MODULAR SYSTEM on the whole surface, compatible with all types of hooks (Alice, Molle,...).
- Back handle for dragging the injured.
- Quick unfastening system that allows the vest to be removed without the need for taking it off over the head, in the case of emergency.

POLICE / MILITARY BULLET-PROOF VEST. Ref. FE-GAR

- Maximum comfort thanks to the special "Superflex" system that makes the use of long weapons and vehicle driving easier.
- Ballistic protection on chest, back, sides and shoulders.
- It can be made with equipment carrying pockets fitted on the chest and back or with our EQUIPMENT CARRYING MODULAR SYSTEM.

FEDUR, S.A. the right is reserved to introduce without previous warning, all the alterations in the design, dimensions, specifications and the manufacture, that it considers necessary to make, to assure the constant improvement its products.

FEDUR, S.A. is a company, which has been devoted to the manufacture of personal, police and military protection material since 1960. Our main customers are the Security Forces (National Police Force, Civil Guard), the Armed Forces (Manufacturer's code of the F.A.S.1753-B), Regional Police Forces (Catalonian Mossos d'Esquadra, Basque Ertzaintza and the Police Forces of Navarra), as well as Municipal Police Forces in Spain and other countries.

POLICE VESTS

COMMON CHARACTERISTICS TO THE VESTS

- The ballistic materials used to make all our vests are state-of-the-art, examined and ballistically tested in our laboratory and in official laboratories, before the production process.
- Possibility of manufacturing for all ballistic protection levels (NIJ IIA, II, IIIA, III, IV) and with stab-resistant and spike-resistant protection (NIJ Level 1, Level 2, Level 3) or with the protection levels required by the client.
- Ballistic packages which can be removed from the outer cover, in watertight, opaque covers which protect them from the light and humidity.
- Outer cover made of polyamide with a high tensile strength, fire-resistant and water-proof polyester and all types of technical materials.
- Personalised vests at the request of our clients.

AT THE SERVICE OF DEFENSE

POLICE BULLET-PROOF VEST. Ref. FE-GE03

- Designed exclusively for Special Operations Groups.
- Total ballistic protection on chest, back, sides, shoulders, arms, neck and pelvis.
- The pelvis ballistic protector is removed and folded very quickly, without the need of unfastening the vest.
- Special design that avoids projectile penetration zones in the union of the neck with pectoral and dorsal panels.
- Inside pockets on chest and back, for inserting ballistic plates.
- EQUIPMENT CARRYING MODULAR SYSTEM on the whole surface, compatible with all types of

- hooks (Alice, Molle,...).
- Perfect for use in combination with the FE-AB4/P bullet-proof helmet, the audio system video and our patented "SC" system, that increases comfort when using the bullet-proof helmet.
- Optional back fastener system for subriffler that allows for quick release with one hand and automatic positioning of the weapon in the hands of the user.

POLICE BULLET-PROOF VEST. Ref. FE-VA

- Ballistic protection on chest, back, sides, shoulders and pelvis.
- Swinging ballistic protector for pelvis, that offers double protection when folded.
- Possibility of fitting additional ballistic plates on chest and back, for higher levels of threat.

BULLET-PROOF VEST VIP. Ref. FE-ARCOGF

- Vest specially designed for use under clothes.
- Extremely flexible and comfortable.
- Outer cover made of technical materials whose main function is to eliminate body sweat, increasing the feeling of comfort for the user.
- Use of textile, ultra resistant and extra fine self-adhesive fastener, for greater durability and concealment.
- Ergonomic design that allows the elastic to be adjusted on the whole surface, making the vest more adaptable to any body shape.
- Available colour, white and blue.

BULLET-PROOF / RIOT POLICE HELMET. Ref. FE-AB3

- Made of aramid and phenolic resin.
- Ballistic resistance for 9mm Parabellum GECO at 410 m/s and .357 Magnum JSP at 420 m/s with traumas between 0 - 9 mm.
- One size only, adjustable by means of natural leather adapter. Interior parts in leather.
- Protection area 1650 cm².
- Bullet-proof screen that can be dismantled or with fixed positioning system with two positions (upper-lower), optional hook for gas mask and carrying bag.
- Optional bullet-proof cervical protector.
- It can be manufactured in the colour and with the ballistic resistance that is desired.

POLICE BULLET-PROOF HELMET WITH DETACHABLE BULLET-PROOF SCREEN. Ref. FE - AB4/P

- Made of aramid and phenolic resin.
- Single harness system, with no surface screws, that eliminates the risk of perforation.
- Same ballistic resistance than FE-AB4/P or according to customer's requirements.
- Special design that allows for a comfortable precision shooting position with long weapon.
- Bullet-proof screen that can be dismantled, without the need of tools, with quick opening system.
- Protection area 1525 cm².
- Weight: 2000 gr (for the ballistic level mentioned above).
- OTAN code (N.S.N.): 8470-33-202-3421.

MILITARY-POLICE BULLET-PROOF HELMET. Ref.:FE-PASG2 - Ref.: FE-PASG3A

- Made of aramid and phenolic resin.
- Possibility of incorporating a bullet-proof screen or riot screen (without tools) with the ballistic level required.
- Black color or the indicated one by the customer.
- FE-PASG2 . Ballistic resistance type II according to NIJ STD 0108.01.
- FE-PASG3A. Ballistic resistance type III-A according to NIJ STD 0108.01.

RIOT POLICE HELMET. REF. FE-1FVK Ref. FE-2FV

Ref. FE - 1 FVK: manufactured in aramid , fiberglass and synthetic resin.
Ref. FE - 2 FV: manufactured in fiberglass and synthetic resin.

Common features for two types :

- Optionally a system can be fitted to the helmet for the fixed positioning of the screen and to hold the anti-gas mask in place.
- Protective carrier bag, optional.
- Transparent or smoked polycarbonate screen with upper hermetic seal to prevent inflammable or corrosive liquids from reaching the user's face. 3 or 4 mm thick.
- Weight 1.500 gr.
- One size only, adjustable by means of natural adapter.
- OTAN code (N.S.N.) Ref. FE - 2 FV: 8415-33-202-3750.

COMMON CHARACTERISTICS OF THE ANTIriot SHIELDS

- Made of top quality polycarbonate, with UV treatment on both sides, of 4 mm or that required by the client.
- Ergonomic handle.
- Anti-trauma protector foam for forearm.
- Arm support with fastening system that allows quick release, adjustable to arm size.
- The grip and arm support can be folded away to take up less space in vehicles.

MOULDED ANTIriot POLICE SHIELD. Ref. FE-ERC1

- Aprox. Size: 90 x 60 cm.
- Aprox. weight (4 mm): 2800 gr.
- OTAN code (N.S.N.): 8470-33-202-4026.

FLAT ANTIriot POLICE SHIELD. Ref FE-ERC3

- Aprox. Size: 100 x 60 cm.
- Aprox. weight (4 mm): 3000 gr.

REVOLVING ANTIriot POLICE SHIELD. Ref FE-EC1

- This shield rotates to prevent possible attackers from being able to twist the policeman's arm, hurt or immobilize him.
- Aprox. Size: 59 cm.
- Aprox. weight (4 mm): 2500 gr.

BULLET-PROOF / EXPLOSIVE-PROOF SHIELD. Ref. FE-EAB3

- Shield ballistic resistance: Level IIIA+.
- Explosive-proof: Withstands the explosion produced by a plastic explosive packet of 1.5 Kg situated at 25cm from the shield.
- Size: 120 x 60 cm.
- Aprox. weight: 10500 gr.
- Vision window: 200 x 80 mm.
- Handle: Metallic, non-foldable, finished with ergonomically shaped synthetic material.
- Arm support: Tape with quick sealing system.
- Pad: Made of foam with ergonomic shape that serves as anti-trauma arm support.

BALLISTIC PLATES

- Curved and flat models.
- Dimensions 250 x 300 mm.
- Able to withstand levels of threat III and IV according to NIJ STD 0101.03 standard or higher, in combination with the bullet-proof vest or by themselves.
- They can be made to order, in any size and with the ballistic protection required.
- OTAN code (N.S.N.): 8470-33-202-8438 (8440, 8442, 8445, 8446).

ANTI-EXPLOSIVES BLANKET. Ref. FE-MAJ

- Protection against explosive artefacts.
- Ballistic resistance V50 , according to US-MIL STD 662-E (17 grains farg.), more than 500 m/sec
- Comprising a rectangular piece that can be divided into two and a enveloping collar.
- Rectangular protection part: This part is made up of another two with the same dimensions and composition, which are joined by textile self-adhesive seals so one or both can be used at the user's discretion. The V50 for one single blanket is 400 m/s.
- Outer material made of highly resilient polyamide, with textile self-adhesive fasteners and handles to enable positioning in different ways.
- It includes a carrier bag.
- Collar dimensions: 0.2x1.5 metres.
- Mantle dimensions: 1x1.5 metres.
- OTAN code (N.S.N.): 1385-33-107-6073.

HYDROSTATIC COMBAT FLOAT. Ref. FHC

- Hydrostatic trigger system with manual block.
- Buoyancy of 275 Nw.
- CE EN399 marked.
- Outer cover optionally made with fireproof treatment.
- Zip fastener.
- Pockets for carrying auxiliary sound and light material.

MODULAR POCKETS

- Modular pockets with security system that avoids accidental loss or tearing.
- Compatible with all types of hooks (Alice, Molle,...).
- We manufacture any type of pocket or weapon cover, with the required colour on demand.

RIOT POLICE HELMET Ref. FE-3K

RIOT POLICE VEST Ref. FE-PNAT

ELBOW AND FOREARM ANTIriot PROTECTOR Ref. FE-BRCD

ANTIriot POLICE GLOVES Ref. FE-GU-PN/UIP

LEG ANTIriot PROTECTOR Ref. FE-PIRD

RIOT POLICE TRUNCHEON Ref. FE-DG1

BULLET-PROOF POLICE SHIELD Ref. FE-EAB2

We have a wide range of antiriot products available such as:

- Cut resistant gloves.
- Antiriot gloves.
- Fireproof gloves.
- Gloves for extreme temperatures.
- Protectors for knees and elbows, and for any part of the body.
- Antiriot truncheons with different finishes and materials.

- Shackles.
- Smoke canisters.
- Gas mask.
- Police and military boots.
- Neoprene thermal masks.
- Personal defence spray.
